WE APPRECIATE your past purchases of **NAYLORSEED** sweet corn.

We offer two varieties of sweet corn in **bicolor** and one in **yellow**. We have two varieties that are **surgary enhanced (SE)** which have excellent taste, tenderness and texture. The SE varieties are less restrictive on isolation from other corn.

We also have one variety which is **Synergistic (se/sh2) and it has 75% (SE) kernels and 25% (SH2) kernels**. The result blends the natural corn flavor and tenderness of sugary enhanced (SE) sweet corn with the higher sugar levels and better keeping qualities of the super sweet (SH2) types. Synergistics are the latest generation of sweet corn hybrids and their quality and flavor is amazing.

We have reserved what we believe to be ample supplies of all the varieties that we carry. To ensure your chosen variety and quantity pre-book your order today and we will ship your order per your request or as always you can stop in at the office and pick up your order.

Book your choice of Sweet Corn NOW!!
Call 1-800-747-SEED (7333)

Our 2012 prices on these hybrids offered on a F.O.B. basis are:
